TC-CART-08	Order Confirmation Page	Complete successful checkout	Redirected to /orders/{token}/confirmation with receipt	PASS
TC-CART-09	Order Tracking	Navigate to /track/{token}	Live status progression timeline displayed	PASS

4. Customer Account Portal & Wishlist

ID	Scenario Name	Test Description / Steps	Expected Result	Status
TC-ACC-01	View Order History	Navigate to /account/orders	Lists all previous orders with date, total, status	PASS
TC-ACC-02	Toggle Product Wishlist	Click heart icon on any product	Product added/removed from wishlist API & state	PASS
TC-ACC-03	View Wishlist Page	Navigate to /account/wishlist	Grid of saved products shown with quick Add to Cart	PASS
TC-ACC-04	Update Profile Details	Change name & phone in /account/profile	Profile updated successfully in database	PASS
TC-ACC-05	Change Password	Submit new password with current password verification	Password updated, new hash stored in DB	PASS

5. Custom Cake Order Submissions

ID	Scenario Name	Test Description / Steps	Expected Result	Status
TC-CUST-01	Submit Custom Order Form	Fill out cake theme, size, flavor, date, budget	Custom order created, admin notification triggered	PASS
TC-CUST-02	Custom Order Date Validation	Select a delivery date in the past	Validation error: Date must be at least 3 days ahead	PASS
TC-CUST-03	Customer View Custom Orders	Access /customer/custom-orders as auth user	Lists customer custom cake inquiries and status	PASS

6. Customer Reviews & Social Proof

ID	Scenario Name	Test Description / Steps	Expected Result	Status
TC-REV-01	Submit Product Review	Submit 5-star rating and comment on product	Review created with status 'pending approval'	PASS
TC-REV-02	Helpful Upvote Review	Click 'Helpful' thumbs up on published review	Helpful vote count increments	PASS
TC-REV-03	Admin Moderation Approval	Approve review in Filament ReviewResource	Review becomes visible publicly on product detail	PASS

7. Operations, Inventory & Production (Admin Panel)

ID	Scenario Name	Test Description / Steps	Expected Result	Status
TC-INV-01	Ingredient Inventory Resource	View/Edit ingredients in Filament Admin	Displays stock level, unit cost, and reorder threshold	PASS
TC-INV-02	Low Stock Threshold Alert	Set ingredient stock below min_stock_qty	Low stock badge highlighted in table	PASS
TC-INV-03	Recipe BOM Costing	Create recipe with multiple ingredients & yields	Auto-computes total raw material cost per batch	PASS
TC-INV-04	Production Batch Execution	Log production batch completion in admin	Deducts raw ingredients, increases product stock	PASS
TC-INV-05	Packaging Materials Management	Manage boxes, bags, labels in PackagingResource	Tracks packaging stock quantity and unit costs	PASS

8. HR, Payroll & Attendance (Admin Panel)

ID	Scenario Name	Test Description / Steps	Expected Result	Status
TC-HR-01	Employee Management	Create/Edit employee record in EmployeeResource	Stores employee number, salary, role, employment type	PASS
TC-HR-02	Daily Attendance Logging	Log employee time-in and time-out	Calculates hours worked and overtime flags	PASS
TC-HR-03	Payroll Computation	Generate payroll run for pay period	Computes SSS, PhilHealth, Pag-IBIG, Tax & Net Pay	PASS

9. POS Terminal & Business Analytics

ID	Scenario Name	Test Description / Steps	Expected Result	Status
TC-POS-01	POS Products Grid	Access /pos terminal screen	Lists active products with instant add-to-register	PASS
TC-POS-02	POS Express Checkout	Complete walk-in sale with cash/GCash	Generates instant order record & updates stock	PASS
TC-POS-03	Executive Dashboard Stats	View Filament Dashboard / Analytics page	Renders total revenue, order count, and sales chart	PASS
TC-POS-04	AI Bakery Advisor Query	Submit query to AI Advisor (admin & storefront)	Returns contextual operational advice / customer info	PASS

10. Content, Legal & Inquiries Management

ID	Scenario Name	Test Description / Steps	Expected Result	Status
TC-CNT-01	Blog Article Publishing	Publish blog post in BlogPostResource	Article visible publicly at /blog and /blog/{slug}	PASS
TC-CNT-02	Customer Inquiry Submission	Submit form on /contact page	Inquiry stored in contact_messages table	PASS
TC-CNT-03	Admin Inbox Management	View and reply to messages in ContactMessageResource	Mark as read/replied updates status badge	PASS
TC-CNT-04	Coupon Code Management	Create new coupon code in CouponResource	Enforces usage caps, minimum spend, and expiration	PASS

Quality Assurance Audit Summary

Audit Conclusion: All 65 test scenarios across 10 functional modules have passed verification. The system displays zero critical bugs, zero regression failures, clean exception handling, and full feature coverage across the public storefront, customer dashboard, POS terminal, and Filament 5 back-office.
